

# Fleet Fueling

## Reduce Labor Costs

### Save Time & Money

Our fueling service eliminates the time spent managing fuel purchases and inventory. And, every vehicle is fueled and ready to go each morning!

With Crabb Fleet Fueling, there are:

- **No more stops at retail stations for fuel**
- **No more wasted time waiting in line**
- **No more wasted hours using company employees to fuel vehicles**
- **No more expense of buying and maintaining on-site fuel storage tanks.**

### Eliminate Liability and Insurance Costs

Erase the insurance cost and liability associated with fuel storage. With Crabb Fleet Fueling, there is no need to worry over increasingly tough government regulations.

### Prevent Theft

Prevent fuel theft with Crabb Fleet Fueling. We manage and control fuel inventory, delivering only to authorized vehicles. Plus, we eliminate the potential for credit card abuse which exists when employees refuel at gas stations. Crabb Fleet Fueling effectively ends inventory shrinkage.

## Reliable Service

### Dependable Delivery

If you have on-road trucks that need to be fueled before 4am, we'll be there. Perhaps you have construction equipment at a suburban location and need fuel every evening at 5pm, we'll be there. Three, five, or seven days per week – **no problem, we'll be there!** We'll design a custom fuel delivery plan to meet your fueling needs.

Crabb Fleet Fueling will deliver high quality fuel to your vehicles right at your location – **any time, any day.**

### Accurate Reporting

Our professional drivers are equipped with a hand-held bar code reader. Each vehicle is barcoded with a small sticker. Before delivering fuel, the barcode is scanned with the device and recorded for reporting purposes.
